

LUCILE THOU

Web Developer (Javascript - MERN stack)

@ developer.lvt@gmail.com

 <https://github.com/luluvann>

OBJECTIVES

During the years I've been a Business Operations and Logistics Analyst, I had the opportunity to work on many projects requiring me to analyze large sets of data using SQL and Excel and present them to business unit teams or decision-making stakeholders. I also created tools in Python and VBA to help users improve their workflow, to automate processes to ensure the ERP system data integrity. Since then, I keep exploring the world of programming and adding new strings to my bow by learning web development technologies/frameworks like the MERN stack. My objective is to become a professional full stack developer and work on projects that matter.

SKILLS

Languages [Javascript](#) [Python](#) [HTML5](#) [CSS](#) [SQL](#) **Technologies/Frameworks** [ReactJS](#) [Bootstrap 4](#) [ExpressJS](#) [MongoDB](#) **Tools** [Git](#) [Visual Studio Code](#) [PyCharm](#) [npm](#) [API in JSON](#) [Postman](#) **OS** [Linux](#) [Ubuntu](#) [Windows 10](#)

EXPERIENCE

Voluntary Junior Web JS Developer

07/2020 - Today (6 months)

As a self-taught developer and in the objective to build my portfolio that I can showcase, I took on some voluntary work and built various web landing responsive pages and a webapp in ReactJS.

- Privacy Oriented Contacts App's landing page: <https://www.pocontacts.app/>
- Weather App in ReactJS with Open Weather Map API : <https://luluvann.github.io/react-weather-app/website/>
- Photography website using W3Schools stylesheet: <https://luluvann.github.io/photo.github.io/index.html>
- Web platform for a friend's start-up using the MERN Stack (under construction)
- Dakota Café restaurant website using ReactJS (under construction)
- 100-day Python challenge of London App Brewery 2021 Bootcamp by A. Yu : <https://repl.it/@luluvann>

Business Operations and Logistics Analyst

01/2015 - 07/2020 (5 years 2 months) - Sunice Inc / Raymond Lanctôt Ltée / Société des Alcools du Québec

- Ensured data integrity of the ERP system and improved the information business workflow
- Analyzed opportunities for logistics processes improvements, implemented the action/project plan
- Provided ad-hoc financial analyses to the executive teams

Global Sourcing Intern

09/2013 - 04/2014 (6 months) - Airbus SAS

- Gathered and provided the required analyses for an annual risks management report for the Strategic Procurement executive team

EDUCATION

Bachelor in Business Administration (Logistics Management) - HEC Montreal

08/2009 - 07/2013 (4 years)

Baccalauréat Economie et Social - Lycée International des Pontonniers Strasbourg

09/2006 - 07/2009 (3 years)
